

# Loading Dock

10 MacNab St. S  
Hamilton, ON L  
8P 4Y2

[Open on Google Maps](#)

The loading dock is to be used by all exhibitors bringing items to the tradeshow floor. Through the loading dock exhibitors can use the freight elevator to bring items up and down to the second and third levels if applicable. There is a loading dock supervisor available to help direct traffic, but we ask that all exhibitors follow the Show Manager's load-in schedule if applicable.

No vehicles are to be left parked in the loading dock overnight and during the event. Larger trucks/trailers interested in parking off-site should send an email to [parking@hamilton.ca](mailto:parking@hamilton.ca) at least one week prior to the event to arrange special accommodations.

If you are bringing in items/boxes by hand you may use the front door but if you are bringing in larger items or carts you **MUST** use the loading dock.

Our indoor loading dock is located on the east side of the building, with access from MacNab St S, just off Main St. There are four (4) loading bays in total, three of which are equipped with powered dock levelers. These docks are 10' wide and 52" tall, standard for unloading small straight trucks as well as 52'/53' semi-trailers.

Turn left on MacNab Street S off of Main Street. The road is located behind the bus terminal.
